Dear ZX80 Owner:

Enclosed is information and several offers that will be of interest to you and helpful in enabling you to get the most from your ZX80.

Please read carefully the brochure about our **new service arrangements** offered through MicroSync. They will be handling all out-of-warranty repairs of ZX80s as well as taking over existing Extended Service Programs.

If you have not already done so, you can now order a **16K RAM pack** which plugs right onto the back of your computer to increase its memory. You can also order the **8K Extended BASIC chip.** There is an order form for these in the software catalogue.

SPECIAL OFFER

We are offering for sale, as long as stocks last, used non-working **ZX80 P.C.B.'s**, complete with **all components, keyboard,** and a **ZX80 Operating Manual** - for **$19.95** including shipping and handling.

If you want an extra ZX80 for spare parts or just to tinker with, send **check or money order** only to the above address.

I hope you will find the items in this package useful.

Sincerely,

NH Searle

Nigel H. Searle
